MacOS  
Linux

## HOBBY

Watch Movie  
Cycling  
Reading Books  
Playing Football

## PORTFOLIO

<https://dashing-mooncake-2fed59.netlify.app>

## PROFILE

"I am a passionate Full Stack Web Developer with strong expertise in the MERN stack. I specialize in building modern, responsive, and user-friendly web applications using React, Node.js, Express.js, MongoDB, JavaScript, and Tailwind CSS. I love turning ideas into functional digital experiences through clean UI/UX, reusable components, and optimized backend logic. I focus on performance, scalability, and writing clean, maintainable code. I am always eager to learn new technologies, solve real-world problems, and deliver high-quality full-stack solutions that help businesses grow."

## WORK EXPERIENCE

### Full Stack Web Developer (MERN)

Self-Employed / Freelance

July 2024 - Present | Remote

Developed full-stack web applications using React, Node.js, Express.js, and MongoDB.

Built clean, responsive, and mobile-friendly UI using Tailwind CSS, JavaScript, and reusable React components.

Designed and implemented REST APIs with secure authentication (JWT / Firebase Auth).

Integrated databases using MongoDB, ensuring fast queries, optimized schema design & data validation.

Worked on dynamic dashboards, CRUD operations, payment systems, and real-time user features.

Collaborated with clients to understand requirements and deliver scalable, high-performance solutions.

Deployed applications on Vercel, Netlify, and Render, ensuring full optimization & SEO best practices.

Used Git/GitHub for version control and followed clean code standards.

## Training & Expertise
